

GULAM ROBBANI RAPPY

Full-Stack Developer | React.js | Next.js | Python

Sylhet, Bangladesh | Phone: +880 1624-695215 | Email: grrabby9@gmail.com

[GitHub](#) • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in the MERN stack (React, Next.js, Node.js, Express, MongoDB, TypeScript), with additional experience in Python automation and desktop application development. Built and deployed production applications featuring payment integration, role-based access control, and AI-powered features. Focused on clean, scalable architecture and eager to bring that same rigor to a production engineering team.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, VBA, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, DaisyUI, Framer Motion, Responsive Design
- **Backend:** Node.js, Express.js, Rest APIs, JWT Authentication, server-side validation, CRUD Operations
- **Databases:** MongoDB, Mongoose, MySQL
- **Desktop/Automation:** PyQt, Pandas, Python Automation, API Integration, QA Automation, Excel Automation (VBA)
- **Tools & Platforms:** Git, GitHub, Vite, Vercel, Docker, AWS, Figma, npm, pip, Chrome DevTools, VS Code
- **AI Workflow:** ChatGPT, Gemini, Claude Code, Antigravity, prompt engineering, Agentic AI
- **Soft Skills:** Problem Solving, Team Collaboration, Communication

PROFESSIONAL EXPERIENCE

Management Information System Specialist: [MGH Group](#) 2021 – 2025

- Automated data processing, invoice generation, and large-scale data entry workflows using Python, significantly improving operational efficiency and reducing manual workload.
- Developed Python-based solutions for warehouse stock audits, inventory reconciliation, and report generation, ensuring accurate and up-to-date inventory records.
- Streamlined sales reporting and accounting processes through automation, integrating data collection, validation, and reporting workflows to improve accuracy and reporting speed.

PROJECTS

Gym Craft — Full-Stack Fitness Platform

[Live Link](#) | [GitHub](#): [Client Repo](#) | [Server Repo](#)

- **Tech Stack:** Next.js, React, TypeScript, Tailwind CSS, React Hook Form, Express.js, MongoDB, JWT, Vercel
- Built a full-stack fitness platform with role-based dashboards for users, trainers, and administrators.
- Implemented JWT authentication and role-based authorization to secure protected routes and APIs.
- Developed RESTful APIs for class management, trainer applications, bookings, and membership features.
- Deployed frontend and backend applications using Vercel.

Bizom Automizer — [Bizom](#) workflows automation through Python Desktop Software

[Live Link](#) | [LinkedIn](#): [Project Link](#)

- **Tech Stack:** Python, PyQt5, MySQL, SQLite, Pandas, Rest APIs, Asyncio, API integration
- Built a PyQt desktop app that automates Bizom workflows via API integration reducing manual workflow.
- Developed centralized control system for bulk order fulfillment, multi-brand load sheet generation, sales return posting, stock batch management and invoice printing.
- Implemented barcode-integrated form management with database-driven expiry tracking and a single-entry point for better user experience.

EDUCATION

Bachelor of Business Administration (BBA) | Bangladesh Open University | 2026 – Expected 2030

CERTIFICATIONS & LANGUAGES

Certifications: Complete Web Development Course | Programming Hero | 2026

Languages: Bangla — Native | English — Professional working proficiency
